

LRP-190 Paper Handle making Machine

Introduction:

machine was developed specifically for the new generation of paper Handle Machine. This machine is sandwiched between two layers of kraft paper rope middle, after gluing, lamination, and then automatically cut into a single handle. Paper bag machine is the ideal complementary product lines.

1.

Features:

1. use Hot-melt glue not falling.
2. easy to operate, fast.

Technical Parameter:

Type	LRP-190
Paper Board Length	190 mm
Paper Board Width	35-50 mm
Rope Diameter	3-5 mm
Max.Speed	300 pcs/min
Paper Thickness	100-120 gsm
Paper Roll Width	70-100 mm
Max.Roll diameter	700 mm
Reel inner diameter	76 mm
Total Power	4 Kw
Weight of Machine	1500 kg
Overall Dimension(LxWxH)	4200x1300x1500 mm
