

## LST Series Flexible letterpress printing unit

**Introduction:**

The printing unit for the paper bag machine connection printing, connected to the paper bag machine can be printed, bag once completed. Saving printing to the bag intermediate material consumption and adjustment time, greatly improve production efficiency and reduce production costs.

**Features:**

1. the machine adopts hard tooth surface gear helical gears, smooth operation, low noise, high accuracy and long life.
2. ink-ring sealed scraping knife scraping.
3. ink Ceramic Anilox roller, high speed dot rate, screen printed layered, stronger.
4. button-360 ° continuous and adjustable longitudinal register device.
5. pneumatic automatic printing plate roller.
6. the independent group automatic ink system, can be opened one or more sets of ink.
7. automatic lubricating oil system

**Technical Parameter:**
